Project Update

Aquarion – Southwest Regional Pipeline Transmission Water Main Eversource – New Canaan to Wilton Gas Main

Aquarion/Eversource is continuing to work on Route 106 for the water and gas infrastructure improvements. Below is a 2 week look ahead as it relates to traffic.

Week of May 30th:

Contractor will continue to work on New Canaan Road. Detour Route around Old Boston Road will be in place. (refer to link below)".

Week of June 6th:

Contractor will continue to work on New Canaan Road. Detour Route around Old Boston Road will be in place. (refer to link below)".

Other Miscellaneous Project details:

- Work will occur for most of 2022 between 8:30 am and 4:00 pm during the weekday.
- Please refer to www.aquarionwater.com/projects for further detailed information about the project.
- All School bus stops will remain at their current location.
- Traffic control will be in place to assist vehicles. Please follow their direction.

Additional Gas utility Work:

Additional Gas work is proposed on Wolfpit Road from Miller-Driscoll School to Belden Hill Road. This work will occur once school is out of session. Alternating 1 lane of traffic will be in place during this work activity. Further information will follow.
