Personnel Change Announcement

It is with a great mix of emotions, that I announce Bob Nerney, Director of Planning and Land Use Management, will be resigning effective February 7th.

On the one hand, there is excitement for Bob that he will be returning to his beginnings, a much larger environment, a city that served as the first Connecticut home for his family and which is only ten minutes from his current home. On the other hand, without question Bob is the best in his profession and is one of the nicest individuals one can meet.

For over 18 years, Wilton has been well served by Bob's thoughtful leadership and commitment to the community. Both are on regular display, including as he helped guide Wilton through the recently completed Plan of Conservation and Development, the recent increase in development activity, and the resolution of the proposed 8-30-g development at 44 Westport Road.

I know I speak for all Town employees and residents, when I say, Bob, we will miss you greatly and we wish you the best.

Planning and Zoning Commissioner Chair Scott Lawrence and I will be presenting the Board of Selectmen with a recommended recruitment plan for Bob's successor.

Lynne A Vanderslice
First Selectwoman
Town of Wilton
