Re: Attansio Residence, 47 Mollbrook Drive, Wilton, CT-Unauthorized clearing of understory vegetation within a regulated area

Dear Commission Members and Staff,

Tracy Chalifoux LLC has been retained by Mr. Michael Attansio, the owner of 47 Mollbrook Drive, to prepare an Intermediate Corrective Action Permit application for the property. As part of the process, it is required that the wetlands be delineated and the wetlands line be added to the survey, however given the current snow cover, the wetlands cannot be located at this time. We ask that the Inland Wetlands Commission grant the owner an extension for the Corrective Action Application, so that the snow and ground may be given time to thaw, and the wetlands can be located and the survey updated.

On behalf of myself and Mr. Attansio we thank you for your consideration and look forward to preparing a restoration plan that will mitigate the impacts of the clearing, stabilize the property, and provide biodiversity to support the local flora and fauna for years to come.

Sincerely,

Tracy L. Chalifoux
