CAREFUL - From outside - CHECK before you CLICK.

Elizabeth,

Can we please review the application at the next regularly scheduled meeting and also we are granting the Commission extra days to keep the meeting open.

**Thanks
Jack**

Hi Jack:

I received the comments from the town engineer Tuesday morning at 6:45. I actually didn't see them until after 4:00 that day, but that's immaterial .

Per the Zoom and online recording of submitted information I would have had to have a response in to the Commission by Tuesday at noon. So, we will have to postpone again.

Why am I realizing this now.. ? For years we all operated by the rule of if it is a minor comment, like they are, we would simply show up at the meeting with two copies of the revised plan and it would be reviewed at the meeting. Covid rules don't allow this anymore.

Jack would you please email Elizabeth Larkin, the Environmental Affairs Assistant and request that the application be reviewed at the next regularly scheduled meeting and also state that you are granting the Commission extra days to keep the meeting open.

I have attached Liz on this email.

Thank you.

I received the attached this morning... but I just returned to the office, and now reading it.

I will do my best to respond tomorrow.

tom
