Date: Wednesday, April 7, 2021 8:20:22 AM

Dear Elizabeth,

As Jake must have mentioned to you on my behalf, it's impossible to complete the requested documents due to the very difficult situation we are in.

Joe has been in charge of the documents preparation and I trusted his indication that all is well under good preparation. I had no idea they have been delayed.

Since Joe has been responsible for the preparation of the documents and the implementation of the permit for years to come, I have counted his responsibility. However, he informed me only recently, he is withdrawing his task.

We have located good experts who could plan and undertake the works. I would therefore request the committee to allow us to complete the documentation by the end of 15 July, since it seems we have to start from the scratch without Joe. From now on, I have to monitor the preparation processes although difficult being away from US. I fully authorize Jake to undertake this responsibility in close consultation with me.

Your kind facilitation to get the understanding of the committee members would be most appreciated.

I shall attend the meeting through zoom or teams at 7:00 am on Thursday japan time. Please urgently send me the link.

Best regard,

Mieko Ikegame, Prof.
