**Attachments:** wetland flag sketch notes.pdf

Hi Mike,

I just called and found you out of the office, Zen suggested I try to email you by email, and you could possibly call me back.

I was following up on a few items from the 230 Ridgefield hearing.

I have also attached the sketch from Eric Davidson which was not in the report I submitted to the commission; I hope that help clarify some of his adjustments. I have spoken to him, and I know he has also tried to call you as well, hopefully you have connected with him.

Please call me when you area available so I can properly clarify a few other outstanding items.  
Thank you

Kate Throckmorton, LA
