RE: 77 Danbury Road, ASML US, LLC, Wilton CT –
WET #2805(s)

This is written in response to the above mentioned application. Based on the review of the documents submitted at this time, The Department of Public Works no objections with this project continuing with the approval process with the following conditions:

- 1) Prior to the issuance of Certificate of Occupancy, the Design Engineer shall provide As-built drawing and certification letter indicating that the project was built in accordance with the design plans.

If you have any questions, please do not hesitate to call.
