Petition to Wilton Town, Tax Assessment

on a serior of the town to change our pointhocheck to a "D" a of the province of any of the province of the pr	Action petitioned for
In conclusion, there is no justification that could be made for Holly Place to be classified as a 6 street given the above factors.	
All other streets directly around Holly place like Old Nursery Dr, McFadden Dr, Chessor Lane, Range Rd, Vale View, Bob White are all 4's or 5's. More importantly, Bittersweet Trail which leads to our 75 foot street is also a 5 neighborhood.	
"The Impact of Cell Phone Towers on House Prices in Residential Neighborhoods," which was published in The Appraisal Journal in 2006, found that buyers would pay as much as 20 percent less for a property near a cell tower or antenna.	
Finally, and maybe most importantly our street is directly adjacent to the Cell tower on Fenwood Lane which is a 4 neighborhood. There is copious amount of research on how cell towers reduce the land value they are near.	
5 Holly Place in Wilton, CT is classified as a "6" for neighborhood which according to some sources could be causing a 10% premium in property taxes. This does not make sense given that all surrounding streets are 4 to 5's. Streets that are clearly superior in all aspects are labelled as a 6 including Pheasant Run, Keeler's Ridge and Riding Club Road. Our street has many undesirable geological features affecting usability of the owners' properties including rock formations, wetlands and water drainage issues from higher elevations.
