

BOND REFERENDUMS

FIVE-YEAR CAPITAL PLAN

OUTSTANDING DEBT AND DEBT SERVICE PROJECTIONS

May 2, 2023
Annual Town Meeting

Bond Referendums

- **\$127,000 for design work for the construction/reconstruction of Scribner Hill Road.**
 - *The total current estimated project cost, before completion of design work, is \$1,827,000. The balance of the project cost will be requested at next year's Annual Town Meeting.*
 - *As a result of damage to the road, the northbound lane of the road was closed last June. A geotechnical engineer was engaged to evaluate the damaged section.*
 - *This next phase is the design of the required construction/reconstruction to repair the damage and make the road fully usable again.*
 - *The Town applied for a state grant to partially fund this project. That grant application was denied because the road is not a commuting route.*

Bond Referendums

- **Up to \$1,935,000 for an artificial turf field at Allen's Meadow.**

- ***Description***

- 255' x 405' coconut husk infill turf field.
- LED energy efficient and updated lights to light the field only.
- Path lighting along the short path from the field to the parking lot.
- Reconfiguration of the existing parking lot.
- Minimal disruption to Allen's Meadow-no asphalt, no additional fencing.
- Overview of Allen's Meadow with the proposed turf field [here](#).
- Close up view of the proposed turf field [here](#).
- Bonding does not include possible seasonal bubble infrastructure that must be installed with the turf field. That work is being paid for by WARF.
 - WARF will provide funding at the time of contract execution.

- ***Replacement Sinking Fund***

- The Town has a sinking fund to offset the cost of 10-year turf replacements.
- Revenues from field and light rentals are held in the sinking fund.
- Net revenues from banner program at the Stadium and Lilly, managed by WARF on behalf of the Town, are transferred to the Town and held in the sinking fund.
- The Town's share of any field and light revenue at Allen's will also be deposited into the sinking fund.

Bond Referendums

- Up to \$1,935,000 for an artificial turf field at Allen's Meadow, cont.

		WARF	BOND
Cost of Turf Field-current \$	\$1,822,527		
Cost Escalation-1 yr @6%	\$109,352		
Contingency @ 10%	\$182,253		
	\$2,114,131	\$180,000	\$1,934,131
Possible Seasonal Bubble Infrastructure	\$ 320,000	\$ 320,000	
		\$500,000	\$1,934,131
Rounded			\$1,950,000

- If the contingency is not required, the Town's bonding will be reduced to as low as \$1.752 million.*
- The contribution of at least \$180,000 from WARF towards the turf field is fixed. If the cost of the possible seasonal bubble infrastructure is less than \$320,000 that savings will be allocated to the cost of the turf field and reduce the Town's bonding.*
- Detailed Cost available [here](#)

Need for a Third Turf Field

- ***Turf vs Grass***

- A turf field provides a greater number of hours of playing time versus a grass field.
- A grass field can't be used in wet conditions. Photo of a wet Allen's Meadow field [here](#).
- Town grass fields are overplayed. Demand means grass fields can't be rested as is required to maintain quality. Photo of Guy Whitten field [here](#).
- To maintain a grass field at an equal quality to turf a grass field needs
 - *over \$100,000 per year in annual maintenance,*
 - *must have an irrigation system, and*
 - *must be rested.*

Need for a Third Turf Field

- ***Shortfall in Available Playing Time***

- The two current turf fields are not sufficient to meet resident demand for turf.
 - *Demonstrated lack of field availability. [Example](#) of availability for April 17 thru May 14 as of April 9th.*
 - *Lilly and WHS Stadiums are on school property-WHS teams have first priority.*
 - *WHS use for the fall of 2022 increased by 25%.*
 - *WHS teams can and do bump others scheduled for the field.*
 - *A third field at Allen's, won't be on school property and thus can/will be prioritized for non-high school youth and adults.*
- High level of youth sports participants ([source](#))
 - *750+ Wilton Youth Football and Cheer participants.*
 - *275+ Wilton Youth Field Hockey participants.*
 - *600+ Wilton Youth Lacrosse Association participants.*
 - *1,000+ Wilton Soccer Association participants.*

Environmental Considerations

- ***Coconut husk infill turf fields don't require watering.***
 - As of June 2023, Wilton is now subject to Aquarion watering restrictions.
 - Voluntary in 2023. Mandatory in 2024.
- ***Coconut husk infill turf fields don't create heat.***
 - Coconut husk absorbs moisture, creating a cooling effect.
 - Crumb rubber infill turf creates heat.
 - Wilton abandoned crumb rubber infill in 2016.

Environmental Considerations, cont.

- ***Town's two existing turf fields don't contain detectible PFAS chemicals.***
 - Test results of water directly from the Lilly and Stadium discharge pipes were non-detected for PFAS chemicals.
 - Test results of the water from Goetzen Brook just after passing Lilly Field were non-detected for PFAS chemicals.
 - Consistent with our test results, the turf manufacturer of our two turf fields [represented](#) the turf fields do not contain PFAS chemicals.
 - The State reviewed the question of a turf field at Allen's twice. CT DPH site: One peer-reviewed study found "*fluorinated substances*" in turf fields "*do not leach into the environment.... they are not the type of fluorinated chemicals that transform in the environment into harmful PFAS.*"
- ***Many people confuse "crumb rubber granules" bans and studies to mean "turf fields" bans and studies.***
 - The EU is considering a ban on synthetic infill, such as crumb rubber and/or plastic granules, not a ban on turf fields. ([Source](#)).
 - Sweden cited crumb rubber granules, as the second highest microplastics found in Sweden, not turf fields. ([Source](#))

Lease Status

- *Agreement with CTDOT on a draft lease.*
- *30-year cumulative term, initial 10 years with two 10-year extensions at the Town's option (twice the current lease term).*
- *No rent, as long as the Town does not charge a fee for use of the property. If fees are charged, the State receives a portion of the fees as rent. Examples of potential fees: Community Gardening Program fee, turf field rental fee or turf light rental fee.*
- *New uses include community gardening, a turf field, a seasonal bubble over the turf field.*
- *Pesticide use not allowed.*
- *Current lease expires in November. New lease would be executed prior to expiration.*

Bond Referendums

- **\$950,000 for the replacement of a fire truck.**
 - Fire trucks are replaced on a 20-year cycle.
 - Three years are required between when the monies are approved and when the fire truck is delivered.
 - At that point, the current fire truck will be more than 20 years old.
 - The replacement fire truck will have a undercarriage made from a different material than the current fire truck, which should allow for a longer life than 20 years.
- **\$780,000 for school roof replacements**
 - *Part of an ongoing program to replace school roofs or roof sections. Required replacements are based on thermal scanning and engineering evaluations.*

Bond Referendums

- **\$275,000 for the design and installation of a new elevator at the Cider Mill School.**
 - The current elevator has aged out and does not meet the State's relatively new requirements for school elevators.

Bonding FAQs

- *The Town borrows once per year in the spring.*
- *The Town only borrows the actual amount required following issue of RFQ/P and approved contract.*
- *Borrowings can't exceed amount authorized in the referendum.*
- *10-year or 20-year term based on the life of the project/asset being funded.*
- *Moody's Aaa bond rating reaffirmed in April.*

Proposed 5-Year Bonded Capital Plan

TOWN OF WILTON						
5 YEAR BONDED CAPITAL REQUESTS	Revised on 4-10-23 to reduce Turf Field by \$65,000					
Project	2024	2025	2026	2027	2028	Total
Road Restoration	\$ -	\$ 2,100,000	\$ 2,200,000	\$ 2,300,000	\$ 2,400,000	\$ 9,000,000

Actual and Forecasted Debt Service FY2016 Budget to FY2028 Forecast

Note: FY2023 Budget includes a bond refunding that didn't occur because of the increase in rates
In Millions

Actual and Forecasted Outstanding Debt FY2014 Actual to FY2028 Forecast

Note: Increase in FY2015 to FY2018 includes \$36 million in borrowings for Miller Driscoll and \$9.9 million in borrowings for Comstock. FY2023 and FY2024 includes \$10 million and \$6.4 million in borrowings for the Police Headquarters.

in millions

Bonding Avoided Due to Grant Awards

Over the last 3+ years, the Town has aggressively pursued grants as a means of reducing taxpayer funding.

\$33.5 million in grants have been awarded.

ROAD BRIDGE REPLACEMENTS	\$ 23,051,400
EMERGENCY COMMUNICATION SYSTEM-COST	\$ 4,320,000
NRVT CONSTRUCTION	\$ 3,261,600
WHS SPORTS COMPLEX DRAINAGE RECONSTRUCTION	\$ 1,485,000
WILTON CENTER TRAIN STATION PEDESTRIAN BRIDGE	\$ 1,405,200
	<u>\$ 33,523,200</u>
