

## BoF

### Suggested agenda topics

- Development of standard data to be compiled/shared with the public-- to address perceived misinformation
- Discussion of Annual Town Meeting environment and results of Annual Town Meeting Vote –what was learned; how to reconcile to recent surveys; advisability of statement describing for the Town the BoF’s interpretation of the outcome of the vote
- Advisability of having the reasons for individual BoF member's votes reduced to writing and then published
- Discussion of policy on communications outside of BoF meetings—consider:
  - Press
  - Social media
  - BoF email
  - Private conversations (when those conversations are directly related to BoF matters)
  - Permissibility and advisability of independent advocacy of individual positions— should communications of positions be limited to BoF meetings?
  - Consider whether the policy should distinguish between communications before and after BoF recommends budget to Town Meeting
- From our meeting of May 13: *Discussion – Annual Town Meeting Vote-*
  - discussion about whether Stroup’s ad campaign was responsible for the behavior of certain folks at the Town Meeting
  - A new policy covering individual advocacy
- Vote on whether the BoF should ask Stroup to resign based on part 2 of the ad campaign (I assume no one objects to advocating for voting-that was part 1)
