5	There is a lot of ugly signage in town despite the very strict regs - a more individualized process that allows for flexibility depending on site location	6/2/2023 5:52 PM

15	I hope something changes because it is hurting the businesses in the community. Two signs needed on the building especially when it is difficult to see the building your shop is in on a main road.	6/2/2023 9:23 AM

20	While there are signage rules much of the approval process seem subjective based on which board you are presenting to versus being. I was once told that I could not use a red background with white letters/logo for my sign yet there were multiple other signs in town with a red background. Limit of one building sign while the storefront space if broken up into multiple smaller spaces would allow for many more signs.	5/20/2023 4:28 PM
21	The onus is on me for not finding this, but it would have been nice to receive this link when emailing instead of having to navigate through the website - which I did have a hard time finding.	5/19/2023 10:57 AM
22	Just want a sign, no other comments	5/17/2023 9:49 PM
23	Remember Wilton is not a GO-TO Shopping Town. We need to attract customers not hide from them. You want to compare us to Ridgefield and New Canaan lets get the same retail based town first, then compare are signage regulations	5/17/2023 8:21 PM

30	Reducing the number of tacky sandwich board signs would improve the look of town center	4/27/2023 9:43 AM

32	Understand the need to contain certain parameters for signage, allowing businesses one half-sized sandwich board (18x24) to be allowed out during business hours and brought in when closed will encourage people walking through town to come in and browse more shops	4/27/2023 7:46 AM

34	Additional consideration should be given on signage restrictions for those businesses who have one or more facades. The current restriction to one sign prohibits businesses to adequately direct customers to their store location. Today the town has uneven enforcement of the single sign regulation which poses a disadvantage to businesses who abide by the current regulations but are negatively by it (i.e. customers expressing difficulty locating a business)	4/26/2023 5:46 PM
