<sup>1</sup>This is actually a count for the inspection type. A single inspection with two types will total as two not one.

<sup>2</sup>Cleared violations from re-inspections outside the date range ARE included if initial inspection falls within date range.

<sup>3</sup>One re-inspection can encompass multiple inspection types - this is why the re-inspection type-specific total is frequently greater than the # of inspections.

<sup>FS</sup>Fire Safety Inspection.

<sup>5</sup>Filtering out portal inspections can cause violations cited to be less than violations cleared (violation cited count comes from both department and portal inspections, while violations cleared only come from department inspections).
