FY 2022 Highway Safety Distracted Driving Enforcement Program Grant Application

PROJECT TITLE	APPLICANT					
FY 2023 Distracted Driving High Visibillity	Wilton Police Department					
Enforcement	PROBLEM ID	PAGE 1 OF 1				

STATEMENT OF THE PROBLEM AND BACKGROUND INFORMATION PROBLEM IDENTIFICATION

To date, identifying the role distracted driving has played in fatality and serious injury crashes has been a challenge in Connecticut, due to the way crash data is collected and limitations of the crash reporting form (PR-1) itself. In order to effectively allocate 405(e) funds to multiple areas including enforcement mobilizations, the HSO chose to use an index of a combination of factors to best identify where the largest volumes of crashes, non-interstate roadway use, and population centers intersect. The goal of which is to target suspected locations where distraction as a result of hand held mobile phone use by drivers leads to crashes; and to identify areas where enforcement of Connecticut's hand held mobile phone for drivers can most be effective.

The applicant was selected by the HSO to conduct High Visibility Enforcement (HVE) based on a combination of the following data, weighted and ranked to determine areas where traffic volumes are highest, and the most crashes occur by town. The following ranking system was used by our data consultant.

- · Fatal and injury crashes 2016-2020
- · Daily Vehicle Miles Traveled (DVMT) (2019)
- · Population (2019)
- · Crash rate per DVMT
- · Crash Rate per population
- · Past High Visibility Enforcement grant performance

The Wilton Police Department has identified the area of Town that has an increased amount of crashes compared to the rest of our Town. This identification was possible through the use of the UCONN crash data depository along with a review of our inhouse records management system. In reviewing the data, we have determined that a majority of the crashes has a direct connection to distracted driving as many of the crashes involved citing the at fault vehicle for following too close. The charge of following too close is directly related to distracting driving in our experience.

The Wilton Police Department has been conducting our own high visibility distracted driving enforcment in the areas identified, but based on call volume, we have been only able to conduct these details when we have extra manpower.

This grant will directly affect our efforts to reduce the number of crashes in the identified areas. They are identified as along State Road 7 (Danbury Rd) from State Road 33 (Westport Rd) to the intersection of State Road 7 (Danbury Rd) and State Road 107 (School St). This area has a high volume of traffic throughout the day which increases during the commuting and school traffic hours.

PROJECT TITLE	APPLICANT					
FY 2023 Distracted Driving High Visibillity	Wilton Police Department					
Enforcement	ACTIVITIES	PAGE 1 OF 2				
ACTIVITIES:						

The following enforcement parameters will be required of participating municipal law enforcement agencies:

- o Spotter-type enforcement strategy Spotter type enforcement is required unless other enforcement strategies are described in HS-1 in detail to plan enforcement schedules and strategies. This must be preapproved in HS-1 grant application.
- o Spotter type enforcement can be done in teams or individually. Please note spotter -self initiated is not roving. Rather, this category involves an officer choosing a strategic, covert location advantageous to the observation of all types of hand held mobile phone use. When this behavior is observed, the officer then "selfinitiates" the stop. **SCROLL DOWN TO NEXT PAGE SUPPLY A DETAILED**
 - o Non-spotter type enforcement explanation:
 - o Enforcement Schedule
 - > Daytime Enforcement Daytime enforcement changes with seasonal patterns. Enforcement must take place during daylight hours

EXPLANATION IF YOUR AGENCY INTENDS TO PROPOSE A

- > 7 days per week eligible § Minimum of 4 hours shifts/Maximum 8 hour shifts
- > Must include at least 1 AM/PM peak drive time (7am-10am/3pm-5pm seasonal) on weekdays. If possible the HSO would encourage both the AM/PM peak drive times as enforcement times but agencies must enforce during at least 1.
- o Enforcement Locations
 - · Enforcement areas should include intersections and other areas where traffic naturally slows. Enforcement locations should be included in grant applications with narrative for rationale as to why locations were chosen (*example – CT statute makes manipulating a hand held mobile device at a traffic sign or signal a violation)
- o Enforcement Schedule

§ Fall Wave: October 15 to October 31, 2022 § Spring Wave: April 1 to April 30, 2023

- o Personnel
 - § Minimum of 2 Officers/Maximum of 8

Earned media participation:

- Participating agencies are required to take part in earned media activity related to DDHVE. This could include the following:
- o Hosting a kick-off press event
- o Conducting ride-alongs or interviews with media at enforcement locations
- o Notification of media outlets through the use of interview opportunities, press releases and media
- o Cooperation with the HSO earned media contractor including:
 - § Distribution of press releases
 - § Use of Approved Talking points
- o Creation and submission of earned media activity with reimbursement documentation
