

**FY25 Budget Survey Public Feedback**

Original #	Question	Feedback	Change to Survey?	Rationale
1	General	Include tradeoff questions, specifically for the BOE	Yes	While it would be helpful to capture this data, we have been advised by legal counsel not to poll people on this since we do not have any control over the BOE line items. However, I have proposed 2 new questions (Q6 and Q8) to provide an avenue for residents to share perspective on changing spending for specific budgets
2	General	Conduct survey telephonically	No	Limiation in ability to reach all residents and limitation on time
3	General	Ask a question about supporting needs identified in the operating budget	No	Unfortunately this touches on line item priorities, which is outside BOF mandate
4	General	Can you add a question about how much people want to spend on infrastructure this year?	Yes	As of now, we have not received a budget for the infrastructure plan, so have not included a specific question on that. That said, as part of the new mill rate increase question on where to apply any new funding, we have included infrastructure as an option
5	Introduction	Provide more clarity on mill rate / revaluation in the introduction	Yes	Clarity provided
6	Q1	Turn question 1 into a scalar question to capture the range of how much people study the budgets (or not)	No	It's a great idea, but the configurabilty of SurveyMonkey makes this difficult
7	Q2 /3 / 4	Bold relevant Boards in questions 2, 3, and 4	Yes	Good idea, helps focus people who are moving quickly
8	Q4	Difficult to understand the mill rate without triangulating to tax rate. Can you add more context?	Yes	Added in comparison chart above question to provide the appropriate context
9	Q5 /6	Including "Whatever BOF decides is sufficient" is confusing and makes data interpretation difficult. Can we remove?	No	This option had been added at the request of a member 2 years ago. The idea was to capture the residents who do not care what the budget change and rely on the BOF to decide what's best
10	Q6	The max mill rate questions are hard to undstand without knowing how this would impact the budgets	Yes	Added in additional questions so residents can specify which budget they would like the proposed change to come from
11	Q13	Add option for people who have children that aren't school aged	Yes	Agree, allows us to capture responses from a different segment
