Re: Wilton Police Station – Wilton, CT  
Special Inspections and Testing Services

Dear Jeff:

Independent Materials Testing Laboratories, Inc. (IMTL) would be pleased to provide testing services for the project as noted. Enclosed please find pricing for the requested tests and inspections. This listing should satisfy the project specific requirements.

Please call me with any questions that you may have.

Very truly yours,

David P. Aiudi  
President

DPA/km

Enclosure

FIELD TECHNICIAN RATES		
Hourly Rate	1-4 Interval	4-8 Interval

**CONCRETE AND REBAR**

Field placement inspection – includes slump, air, temperature, truck timing, cylinder fabrication and delivery .....		\$190.00	\$340.00
Temperature reading for cold weather for concrete .....	\$ 48.00		
Lab Tests: Curing and compression test of cylinders:			
Fabricated by IMTL, each .....	\$ 10.00		
Concrete Curing Box Lease, each .....	\$250.00		
Delivery of cylinders, .....	\$120.00		

\*Concrete cylinder curing is the responsibility of the contractor who must maintain the curing conditions. IMTL supplies a box only as a matter of convenience. Client shall agree to these terms as well as specify to the contractor his responsibility per ACI manual of concrete practice.

**SOILS AND AGGREGATES**

Technician for fill inspection, sampling or field density (compaction) by Nuclear gauge .....	\$ 36.00/hr
Determination of density of soils in place test, ea .....	\$ 25.00
Lab Tests: Gradation (sieve) analysis, per sample .....	\$ 88.00
Proctor (maximum) density test, per sample .....	\$102.00

Rush service available at 1.4 X rate

**MASONRY**

Masonry testing including fabrication of mortar cubes or grout prisms .....	\$ 57.00/hr
Lab Tests: Compressive tests of:	
Masonry prisms or CMU, per set of three (3).....	\$190.00
Mortar cubes, per unit.....	\$ 20.00
Grout prisms, per unit.....	\$ 20.00

**ASPHALT**

Test compaction and/or temperature .....	\$58.00
Lab Tests: Asphalt content & a	
Aggregate gradation, per sample .....	\$96.00

(Client agrees that asphalt theoretical density shall be determined by asphalt supplier in accordance with CT DOT specifications in the calculation of compaction values)

**FIELD TECHNICIAN RATES**

Hourly Rate	1-4 Interval	4-8 Interval
-------------	--------------	--------------

**STRUCTURAL STEEL**

Qualified technician for testing of field welded and bolted connections of steel; or fabrication CT shop testing ..... \$ 82.00

**NDT**

Ultrasonic, liquid penetrant, magnetic particle testing .....\$ 91.00

**WOOD CONSTRUCTION**

Qualified technician for review of wood framing and detailing; or in-state fabrication shop testing ..... \$375.00 \$550.00

**SPRAY ON FIREPROOFING**

Fireproofing technician for thickness, adhesion and density sampling, \$ 52.00  
Lab Tests: Density, each: .....\$ 38.00

**FIRESTOPPING**

Fireproofing technician for inspection of Firestopping Per submittals .....\$375.00 \$550.00

**SEISMIC ANCHORAGE**

Technician for seismic anchorage .....\$450.00 \$750.00

**SOIL BEARING**

Bearing observations by Senior Geotechnical Technician, per hour (3 hour minimum) ..... \$150.00  
Geotechnical Engineer PE (3 hour minimum) ..... \$250.00

**ASPHALT**

Test compaction and/or temperature ..... \$58.00  
Lab Tests: Asphalt content & a  
Aggregate gradation, per sample ..... \$96.00

(Client agrees that asphalt theoretical density shall be determined by asphalt supplier in accordance with CT DOT specifications in the calculation of compaction values)

**FIELD TECHNICIAN FOR SPECIAL INSPECTIONS** .....\$85.00

**PROFESSIONAL ENGINEER**, hour ..... \$125.00

**\*APPROXIMATE PROJECT BUDGET**

Project Estimate .....\$48,185.00

(Users of this estimate must recognize that IMTL, Inc. does not have control over construction means and methods, schedule, job supervision or any work/services by others).

Terms and conditions of agreement per State of Connecticut DAS. Other prices not listed in DAS requirements are IMTL current rates applicable for one (1) year. Overtime rates at 1.5 times the hourly rate for the applicable scheduled intervals are in effect for any hours worked Monday through Friday before 7:00 a.m. or after 3:30 p.m., over the scheduled interval, or all hours on Saturdays, Sundays and Holidays. The Client shall cooperate by providing access to the work and furnishing incidental labor and facilities necessary to facilitate inspections and tests. Travel time and mileage is included for quoted field-testing. The Client is responsible for scheduling testing with IMTL’s office the day previous to the required service. Non-destructive testing of structural steel (UT, MT) requires 48 hour advanced notice for scheduling.

**ALTERNATE:**

Should the client decide that other terms and pricing that IMTL offers is optimal for the project, IMTL would provide an alternate proposal for the work.
