

To Wilton P&Z Commissioners:

I am writing to you on behalf of the Wilton Economic Development Council. We were made aware of the desire to have the Wilton Farmer's Market moved to a central Wilton town location versus its current location on Route 7 at the Historical Society, from a variety of local town businesses who attended and spoke up at a special Wilton Economic Development council meeting.

We would like to formally endorse a plan to move the Wilton Farmer's Market to a location in the center of town to help fuel traffic to our local business community and drive shopping consideration.

We understand that Schenk's Island is under consideration and would like to support this space as a great location for the Farmer's Market. Thank you for your consideration.

To Wilton P&Z Commissioners:

Dear Commissioners:

The Wilton Economic Development Council recently held an information session with local Wilton business leaders to understand their challenges and needs in the face of issues their businesses have faced in Town as a result of COVID and other factors.

We have heard an overwhelming number of complaints about the Wilton sign ordinance. We understand that you are examining the current zoning regulations related to signage and are writing to urge you to revise the current regulations to create more business friendly and uniform sign regulations for Wilton business.

Thank you for your consideration.
