RE: Electricity Supply Agreement

Our current electrical supply contract with Engie Energy will expire on January 31, 2024 and we are now within the window for renewing the agreement. I have been reviewing the energy market with our consultant over the past several weeks, and believe we are in a good position to lock in a slightly lower price for a longer period of time. Under the current agreement our price per kilowatt hour is 10.99 cents, and as shown below in the most recent bid results, we have an opportunity to realize additional savings going forward.

I recommend to the Board that the Town renews its agreement with Engie for a term of 34 months at a cost of \$0.10483 per kwh.

Supplier	12 Months	22 Months	34 Months
First Point Power	\$0.11472 *	\$0.11383	\$0.11411
Engie	\$0.10586	\$0.10520	\$0.10483
MP2 Energy	\$0.11322	\$0.11404	\$0.11199
EDF Energy	\$0.10896	\$0.11014	\$0.10878
Smartest Energy	\$0.10690	\$0.10540	\$0.10540
Constellation	\$0.11992	\$0.11864	\$0.11627
Direct Energy	\$0.12005	\$0.11902	\$0.11755
<b>Low Option</b>	<b>\$0.10586</b>	<b>\$0.10520</b>	<b>\$0.10483</b>

Thank you.
