Subject: Thank you for all the work on the replacement of the Wilton track

Commissioner Bilella,

I write this as a private citizen.

Thank you for all the work on the project to replace the Wilton Track. I thought the presentation to the Board of Selectmen was very well done and reflected a great deal of hard work.

The track is an important part of Wilton's recreational amenities, and a great track reinforces the message that Wilton cares about its schools.

I would like to suggest that, at the appropriate time in the project cycle, you consider the possible alternative of the standard track color combined with a new color for the exchange lanes. But, I believe the town will be served by any of the available alternatives.

Thank you,

Ross Tartell
