Haven't you heard?

Frontier<sup>®</sup> FiberOptic  
is here!

# Frontier Fiber Optic Project

- ✓ **Upgrades through fiber-to-the-premises expansion**
- ✓ **2021 build will serve approx. 5,000 SFUs/SBUs**
- ✓ **Fiber can provide additional future services**
- ✓ **Frontier® FiberOptic / 50 Mbps up to Gigabit service**
- ✓ **Majority of work to be performed will be on existing overhead lines and existing underground substructures**

# How does Broadband Impact Communities?

**The fiber network is 100% fiber from our central office to a customer's location**

**Households can easily connect to multiple devices at one time**

**Fiber broadband increases rental & property value \***

**High-speed internet: Frontier® FiberOptic offers speeds up to Gigabit service**

**Revitalizing rural communities**

**Entrepreneurs have the speed they need for business development**

**Students can learn anywhere & compete on a level playing field**

**New markets for operators: enable them to offer new services**

*\* A Fiber Broadband Association study shows home values increase with access to fiber*

# Why Frontier FiberOptic Targeted Expansion Makes Sense

**Super Fast Speeds**

**Better Reliability**  
(Voice, Data, IPTV)

**No Bottle-Necking**

**Smaller & Discreet Equipment**

**Better Network Elements to Support Future Growth**

**Less Chance for Degradation**

**Less Expensive & More Cost-Effective to Deploy**

**Doesn't Experience Interference**
