

TOWN OF WILTON

Request for Proposals for Town Wide Bridge/Culvert Evaluation

DUE: JUNE 21, 2019 @ 3:00 PM

Addendum #1 6-14-2019

Below is a list of various questions received and Town responses:

- Question:** Should consultants include hydraulic / hydrologic modeling and evaluation in the scope of services?
- Response:** Please include firm experience with hydraulic/ Hydrologic modeling for bridges. Final scope of services will be determined upon award.
- Question:** Should consultants consider the long-term impacts of climate change in this effort?
- Response:** Impacts of long-term climate change can be considered.
- Question:** Should consultants' scope include the submission of conceptual engineering calculations to accompany any proposed repair concepts?
- Response:** Refer to item 2.j. on page 3 of RFP.

Question: Will the Town provide traffic input and requirements for discussion of concepts that may need detours or partial closure?

Response: The Town will provide traffic input during evaluation.

Question: Is there a permitting / environmental evaluation component to this scope?

Response: Listing required permits would be part of Long range plan.

Question: Have all of the structures been previously inspected by the State?

Response: The bridges included in the RFP were inspected by the State.

Question: Does the Town have an order of preference of assessment and evaluation of the bridges and culverts?

Response: No. Refer to section 4.a of the RFP for the schedule.

Question: Is the Town interested in discussions of improvements to bridges and culverts (i.e., beyond just repairs) as part of the assessment process?

Response: Refer to section 2.d of the RFP.
