Boy Scout Troop 20 Restores Campsites in Wilton's Town Forest

Boy Scout Troop 20 recently revamped two campsites in the Town Forest which is Wilton's largest open space park. The troop volunteered to create more inviting, low-maintenance, and functional camp sites within the designated camping area. *"The Boy Scouts of Wilton's Troop 20 did a great job enhancing the almost forgotten camp area. They cleared dead and fallen tree limbs, added signage and built new fire pits and picnic tables. I know the Conservation Commission and the Town of Wilton appreciates their efforts"* said Mike Conklin, Director of Environmental Affairs.

The campsites are open for tent camping only and it should be noted that there are no bathroom facilities or water services available. Campers can park at the Boas Lane parking area and then must hike approximately ½ mile south along the blue & white trails to the designated camping area.

Camping in the Wilton Town Forest is allowed within designated campsites by permit only. The sites can be reserved for one to three days. To obtain a campsite permit, please contact the Department of Environmental Affairs at (203) 563-0180.

A map of the Wilton Town Forest is available on the Town of Wilton [website](#).
