FOR IMMEDIATE RELEASE

March 11, 2020

We have been notified that parents of one or more Wilton Public School students have had direct contact with a potentially presumptive positive COVID-19 patient. Out of an abundance of caution, Wilton's Health Director has ordered the following:

Wilton Public Schools are closed until further notice.

The Town of Wilton's Comstock Community Center is closed until further notice.

The Trackside Teen Center is closed until further notice.

All sport and other activities involving Wilton public school students are suspended until further notice.

Parents should immediately make arrangements to pick up their children from afterschool care at the WPS and the Comstock Community Center.

Please have children stay home, check temperature two times per day, and call your personal physician if there is a fever, cough and difficulty breathing.

Thank you,

Lynne Vanderslice
First Selectwoman

Dr. Kevin Smith
Superintendent of Schools

Barrington Bogle
Health Director
