HOW TO READ AND WRITE MUSIC FOR BEGINNERS
Do you have a favorite song on the radio you want to learn? Do you have siblings or friends who play an instrument and want to get in on the fun? You might even want to write your own music! At its simplest, music is a language. Notes are letters, measures are words, and phrases are sentences - all of which are represented by symbols you will see on pages of sheet music. These symbols represent the speed, the rhythm, and pitch of the music itself. They also help to indicate how the music should be played and the techniques a musician should employ to play the place.
This essential course for music beginners will cover: music notation, musical vocabulary, clefs, rhythm, and key signatures.

Requirements: (1) pencil, eraser, notebook and a folder.

This Summer CT Soccer Network will be running a summer long Soccer Classic at Lilly Field in Wilton on weekday evenings. This is a great opportunity for young soccer players to continue playing over the Summer in an informal, fun, game-play environment where the sessions will be player-centered with the flexibility of a summer schedule.

- Experienced and qualified coaches to lead and supervise sessions
- Environment for players to play freely
- Develops technical, tactical, mental, physical, social and decision making skills
- Emphasis on fun, participation while learning through playing
- Freedom to express themselves in a low pressure environment, resulting in creative problem solving
- The flexibility to attend as and when you can without the worry of 'missing' sessions

Running through 8 weeks of the summer CT Soccer Network will run sixteen 1.5 hour sessions where players will run through a variety of techniques and skills before being 'let loose' to experiment and flourish through game play in both small and medium sided game format.

We aim to provide an environment where players can express themselves by going 'back to basics' and stepping away from too much structure and pressure, therefore allowing significantly more freedom to explore the game for themselves, while learning from successes and mistakes. This program gives the game back to the players and coaches will simply supervise, guide and offer feedback.
