Subject: Tree Code for Brookville, NY
To: Jackie Algon <rennipsj@gmail.com>

Hi Jackie,

Here's the tree code for Brookville, NY, another tony town on Long Island's Gold Coast. This one is a bit different:

— You can't remove a tree that has a trunk 12 inches in circumference
— You can't remove trees within 20 feet of the back and side of a property and 30 feet in the front
— No more than 20 trees within a 2-year period can be removed without approval

Here's the link:

https://ecode360.com/29220637
