Subject: Tree Code for Mill Neck, NY

To: Jackie Algon <[rennipsj@gmail.com](mailto:rennipsj@gmail.com)>

Hi Jackie,

Here's the link to the Tree Code for Mill Neck, NY, out on the north shore of Long Island. It's a very beautiful, leafy town — feels a lot like towns here in Fairfield County. This is where my friend lived who got into trouble for cutting down a tree without prior approval.

You're going to like this Tree Code. Basically, you have to get a permit to take down any tree that has a trunk more than 6" in diameter. And you also have to get a permit if you take down two or more trees within 30 days, regardless of how big it is! There's also a \$100 permit fee. These people REALLY like their trees!!

Suzanne
