VARIANCE DESCRIPTION: In the space below, please state concisely the section(s) of the Zoning Regulations proposed to be varied and the specific variance requested (i.e: Request a variance of Section 29-__ to allow ____ (an addition, a pool, average lot width, or whatever) with ____ in lieu of the required _____. For instance, a variance request for a building addition that encroaches into the required fifty foot rear setback area by 7 feet would read as follows: "Request a variance of Section 29-5.D to allow a building addition with a 43 foot rear yard setback in lieu of the required 50 feet." ATTACH SEPARATE SHEETS AS REQUIRED.

Request a variance of Section 29-5.D to allow a building addition with a 34.6 foot setback in lieu of the required 40 feet.

Request a variance of Section 29-5.D to allow a trellis with a 35.5 foot setback in lieu of the required 40 feet.

HARDSHIP DESCRIPTION: In the space below, state the specific conditions pertaining to the perceived "exceptional difficulty or unusual hardship" with respect to the parcel of land, not generally encountered within the zoning district, which would make development in full accordance with the existing Zoning Regulations extremely difficult. ATTACH SEPARATE SHEETS AS REQUIRED.

14 NUTMEG LANE

JAN HILGEMAN & GREGG JONES

We purchased 14 Nutmeg Lane in October 2022; our hope and plan is to enjoy the home as an extended family with our son, Christopher, and daughter-in-law, Casey – and hopefully grandchildren in the near future. Chris and Casey have been living in the house since we closed last year. Gregg and I plan to “age in place” and want to create a space where we can comfortably and independently do so (i.e. single-level living, relatively easy access to the second floor for as long as possible, etc.). The addition is for us and will include enhancement of the existing 2nd entrance to the south, new living & dining areas, and a new ensuite bedroom with laundry facilities. The existing expansive kitchen will be renovated but will remain the only kitchen in the house.

The property is more or less trapezoidal in shape – narrower to the south and wider to the north. Much of the northern 2/3 of the site consists of a pond and wetlands. The house is situated in the remainder of the site, with the southernmost elevation of the house spanning completely across the site from side yard setback to side yard setback to the east and west, and has a prior minor variance for the eave on the southeast corner of the garage that was added in the late 1990's. The house is about 40' from the Wetlands Setback to the north and sits entirely within the 100' Wetland Regulated Area. To minimize further side yard infringement, and to avoid the existing septic system in the front yard and visual impact from the street elevation, we looked to the rear of the house for the addition while trying to avoid substantial impact to the Wetlands.

We looked at a number of ways to minimize, or eliminate altogether, any additional variance. Our initial plan was to locate the entire addition some feet west. As we developed that design, we realized there would be conflicts with the 2nd floor bump-out and roof lines from both an architectural and constructability point of view, including relocation of mechanical equipment, flues and chimneys to provide space to connect the addition to the rest of the house. We then shifted the entire addition eastward, and we found we would have required a side yard variance of 15' or more. We then separated the bedroom and bathroom block from the rest of the addition and slid it north to get to the currently requested variance. This puts the bedroom a bit further into the Wetlands Setback but overall seemed like a good compromise between the two setback requirements.

The trellis is an architectural element intended to break up the expanse of the east garage elevation, and a portion of it would be below the garage eave which is already an

approved variance. We would like to keep the trellis or a roof “eyebrow” over the garage doors if at all possible and would be happy to discuss possible options with the ZBA.

HELPFUL INFORMATION FOR VARIANCE APPLICATIONS

1. WHAT IS A VARIANCE? A VARIANCE is an exception granted by the Zoning Board of Appeals (ZBA) from the terms or standards of the Zoning Regulations for an individual property where, because of special conditions, a literal enforcement of the Regulations would result in exceptional difficulty or unusual hardship. However, a variance **MUST** still be in harmony with the general intent of the Town's Plan of Conservation and Development and not contrary to public welfare.
2. The granting of a VARIANCE is a fine balance between attempting to maintain the Town's Plan of Conservation and Development of uniformly regulated districts, and the need to provide relief from the terms or standards in individual circumstances. VARIANCES are granted only for individual parcels and for particular purposes.
3. It is the applicant's obligation to present and establish hardship. Financial impacts or self-created conditions or an inability to use a property at its maximum potential or reasons that the proposed change would not adversely affect the neighborhood are not considered a hardship in this context. Hardship is generally seen as a physical or restrictive imposition beyond the reasonable control of the owner.
4. The ZBA may attach conditions to a granted VARIANCE in order to make them more in harmony with the purpose of the Zoning Regulations. Typical conditions that could be attached to a setback variance might include the installation of a screen or buffer.
5. Prior to submitting an application for a residential or commercial variance, please consult with the office staff and become familiar with the current Zoning Regulations which apply towards the property or project in question. The office staff can help answer questions and guide you in finding the information required for a complete application. Professional Land or Resource Planners and Land Use Attorneys may also be helpful.
6. Complete applications for either a RESIDENTIAL or COMMERCIAL PROPERTY VARIANCE are received in the ZBA Office, located within the Planning and Zoning (P&Z) Office in the Town Hall Annex, 238 Danbury Road, Wilton, CT, 06897. The office is open Monday through Friday, 8:00 A.M. to 4:00 P.M. Telephone: (203) 563-0185.
7. Please **TYPE** or print clearly all materials and application forms.
8. The deadline for receipt of a completed application is the **TWENTY FIFTH (25) of EACH MONTH**, for eligibility for a PUBLIC HEARING the following month. Only a complete application can be accepted.
9. The ZBA has scheduled meetings on the third Monday of each month, excluding August. If the third Monday is a holiday, the meeting is held on Tuesday. A copy of the official meeting schedule may be obtained online: [Application Forms / Materials | Wilton CT](#)
10. Much of the required information may be found by researching the land records online, per instructions provided. .
